CURRICULUM VITAE

SONI SINGH
B.Sc. (Hons.) Forensic Science with Research
Lovely Professional University
Academic Session: 2026–2030

1. PROFESSIONAL PROFILE

I am an enthusiastic and dedicated undergraduate student pursuing B.Sc. (Hons.) Forensic Science with Research at Lovely Professional University. I have a keen interest in crime scene investigation, forensic evidence collection, crime scene reconstruction, and scientific investigation. I aspire to develop practical knowledge, analytical abilities, and research skills to contribute to criminal investigations and the justice system.

2. AREAS OF INTEREST

Crime Scene Investigation: Understanding crime scene examination procedures and investigative techniques.

Evidence Collection and Preservation: Learning methods of identifying, collecting, packaging, and preserving forensic evidence.

Crime Scene Reconstruction: Analysing physical evidence to understand the sequence of events at a crime scene.

Fingerprint Examination: Studying fingerprint patterns, identification, and comparison techniques.

Forensic Photography: Documenting crime scenes and physical evidence through systematic photography.

Bloodstain Pattern Analysis: Understanding bloodstain patterns to interpret events at crime scenes.

Trace Evidence Analysis: Examining fibres, hair, glass, soil, and other microscopic materials.

Forensic Biology: Exploring biological evidence and DNA analysis in criminal investigations.

3. ACADEMIC AND PROFESSIONAL SKILLS

Research and information gathering.
Analytical and logical reasoning.
Basic forensic science knowledge.
Scientific report writing.
Case study analysis.
Critical thinking and problem-solving.
Observation and attention to detail.
Communication and presentation skills.
Basic knowledge of fingerprint identification.

4. CAREER OBJECTIVE

To establish a successful career in forensic science by developing expertise in crime scene investigation, forensic evidence examination, and scientific analysis. I aim to gain practical experience, pursue postgraduate education, and contribute to criminal investigations through accurate evidence collection and scientific methods.

5. CAREER PLANS

Short-Term Goals

Complete my undergraduate degree in B.Sc. (Hons.) Forensic Science with Research.

Develop a strong academic foundation in crime scene investigation.

Participate in forensic workshops, seminars, and research projects.

Gain practical experience through internships and laboratory training.

Improve my crime scene examination and evidence-handling skills.

Long-Term Goals

Pursue a Master's degree in Forensic Science at the University of Technology Sydney (UTS), Australia, with a particular focus on Crime Scene Investigation.

Gain advanced knowledge of crime scene examination, forensic evidence interpretation, and reconstruction techniques.

Develop practical expertise through advanced forensic training and research.

Explore professional opportunities in forensic laboratories, crime scene investigation units, and law enforcement agencies.

Establish myself as a skilled forensic professional and contribute to scientific criminal investigations.

6. PERSONAL STRENGTHS

Curious and investigative mindset.

Detail-oriented and observant.

Dedicated and self-motivated.

Responsible and disciplined.

Passionate about scientific investigation.

Willingness to learn and explore new techniques.

8. PERSONAL DETAILS
